Arthur Holden

PBR Consortium - TSC model

Organized as 501(c)3

Set up legal status to avoid anti-trust

Arthur has been talking to 6 core Pharma R & D execs

Toxicogenomics

Biomarkers/surrogates for oncology

Disease associations

Pharmacogenomics of ADRs

Build a flexible membership around each program

Would generate publicly available data sets

Next 3 months - refine strategy

He runs about biomarkers plan

Thinks ~~to~~ it's moving slowly

WGA Consortium

Told him about this (in general, no Pharma)

Wants to be involved

* Steering Committee? Would be interested!

" Complementary not competitive " with FNIIH

Subject: US Biobanking & WGA Project

Hi Francis:

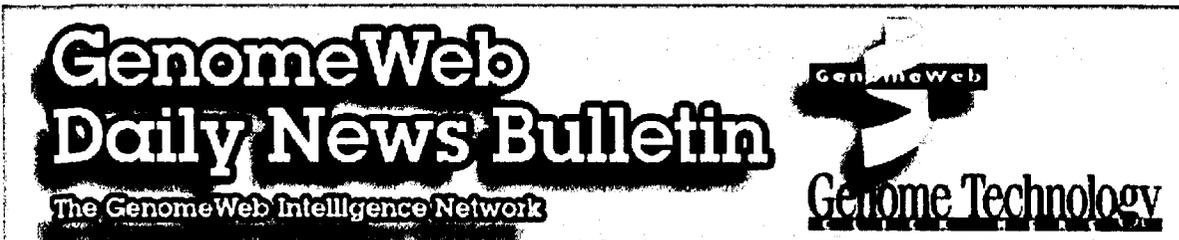

Things are progressing nicely on the PBR Consortium. Do you have a few minutes to talk about the biobanking and WGA efforts, as well as the other priorities that are arising out of my discussions?

Thanks, in advance, for your response.

Best,

Arthur
